AUTHORIZED ASSISTANCE

The authorized assistance on products can be carried out exclusively by authorized and qualified personnel of the Directa Plus S.p.A.

INTRODUCTION OF THE MANUAL

This manual contains instructions in order to use the washable mask with interchangeable filter. The manual consists of several sections, each of which covers a series of topics, divided into chapters and paragraphs.

The general index lists all the topics covered throughout the manual. Page numbering is progressive, and each page displays the page number. This manual is intended for the user, responsible for the use and storage of the product and is related to the technical life after its production and sale.

This manual contains confidential property information and cannot be partially provided to third parties for any use and in any form, without the manufacturer's prior written consent.

Directa Plus S.p.A. states that the information contained in this manual is in compliance with the technical and safety specifications of the product to which the manual refers.

Compliant copy of this manual is contained in the product's technical file, stored at Directa Plus S.p.A.

Directa Plus S.p.A. does not recognize any documentation that has not been produced, released or distributed by itself or its authorized agent.

This manual, like the entire technical file, will be kept by the manufacturer for the period required by law.

During this period, a copy of the documentation accompanying the product may be required at the time of sale.

The entire technical file remains available for this period only to the supervisory authorities, who will be able to request a copy. After this period, it will be mandatory and for those who manage the product, making sure that both the product and the documentation, are in compliance with the laws in force, in order to be able to use it in accordance with the current legislation.

Warranty

The warranty rules, listed in full in the purchase agreement, are valid only if the product is used for its purpose. Any repair or modification made to the product by the user or unauthorized companies causes the warranty to be declined. Warranty does not extend to damage caused by impertinence or negligence in the use of the product.

The products we sell are covered by warranty with regard to the following conditions:

1. The warranty is valid for a period of twelve (12) or twenty-four (24) months depending on the legal nature of the purchaser.
2. The manufacturer undertakes to replace the products of mis-manufacture at its discretion, only after careful inspection and feedback of poor construction.
3. The buyer is always responsible for the cost of transporting and/or shipping in case of incorrect use of the warranty terms.
4. During the warranty period, the replaced products become property of the manufacturer.
5. Only the original purchaser who has complied with the normal use indications contained in the manual may benefit from this warranty. Our responsibility for the warranty expires when: the original owner gives up ownership of the product, or changes have been made to it.
6. The warranty does not cover damages resulting from excessive stress such as the use of the product after an anomaly is found, the use of inappropriate operating methods, and the failure to observe the instructions
7. The manufacturer takes no responsibility for any difficulties arising in resale or use abroad due to the provisions in force in the country where the product was sold.

Warning: If you believe the warranty is required, please provide the following information:

- Type
- Purchase date (presentation of purchase document)
- Detailed description of the problem

PRODUCT DESCRIPTION

The product described in this manual is a washable mask with interchangeable disposable filter with water-repellent, hypoallergenic and breathable properties. Both mask and filter are printed with graphene printing paste.

The mask is latex-free; the external structure is reusable up to 50 times, while the internal filters are disposable.

The mask in question cannot be defined as PPE as it does not have the purpose of protecting the user's respiratory tract.

The mask in question cannot be defined as a medical device as it cannot be used in the medical field.

TECHNICAL DATA

Sizes: S/M e L/XL – **Dimensions (mm):** 460 x 140 - **Weight (gr):** 30/pc approximately - **Available colours:** Blue with CELLULA pattern and Blue with DIAMOND pattern

Materials:

- Mask structure: 88% polyamide - 12% elastane
- Filter: TNT, 100% PES
- Inner layer: 3D mesh, 100% polyester
- Sewing thread: 100% polyester yarn with a gutterman count embroidery: polyneon title 40
- Closure: velcro in polyamide and synthetic resin
- nose pads: 100% aluminum

Unexpected use

There is no other use than those described in the section **"PRODUCT DESCRIPTION"**. It is also absolutely forbidden: the use of the mask as an individual protective device or medical device, the use of the product by subjects who have not read the manual carefully, the use by those allergic to the

substances to which the product is composed, the use by children in recreational activities, apply the mask to the injured skin or a wound, apply the mask to parts of the body other than the face.

Product limits:

- masks can be used until the structure is compromised (for example cuts).
- The filter can be used only once as it is disposable.

RESIDUAL RISKS

It is absolutely forbidden to make any changes to the product. Any damage resulting from the use of the product improperly modified by an unauthorized operator, relieves the manufacturer of any liability. Carefully store this manual, necessary for the correct and safe use of the product. If the structure of the product has deformations following an accidental collision, such as a rubbing against an abrasive material, such as to make it dangerous and/or unusable, it is necessary to contact authorized assistance and follow their directions.

USE

- Check that the mask is clean before application. If not, carry out the operations indicated in the paragraph "Cleaning and maintenance".
- Sanitize your hands by washing them thoroughly with soap and water.
- Remove the mask from the packaging (in the case of first use).
- Wear the mask by closing the velcro behind the head. The ears must be let out by the special eyelets located on the sides of the mask structure.
- Place the mask on the face to completely cover the nose, mouth and chin.

To replace the filter:

- Sanitize your hands by washing them thoroughly with soap and water.
 - Remove the old filter from the mask structure and dispose of it in the unsorted waste
 - Remove the new filter from the package.
 - Place the new filter in the space provided according to these indications (photos attached):
- 1) Place the filter at the beginning of the pocket
 - 2) Insert the filter inside the pocket
 - 3) Place the filter through the upper opening

CLEANING AND MAINTENANCE

	Hand wash the product with warm water and neutral and non-aggressive detergents.
	Do not bleach
	Do not put in the dryer
	Do not iron

- **Drying:** dry in the open air avoiding direct sunlight.
- **Disinfection:** follow the instructions of the supplier of the disinfectant system.
 - Spraying on the surface with disinfectant solutions and waiting for them to dry

STORAGE

Before storing the product, check that it is clean.

- Store the product in a cool indoor environment, away from atmospheric agents and steam jets.
- Keep the product away from sources of heat, open flames and direct sunlight.
- We recommend storing the product inside a container that can preserve its characteristics.

DISPOSAL

The construction materials of the product do not require special disposal procedures. It is necessary to refer to the local regulations for the disposal of unsorted waste. Do not disperse or abandon the product to the environment for any reason.

Warranty

The warranty rules, listed in full in the purchase agreement, are valid only if the product is used for its purpose. Any repair or modification made to the product by the user or unauthorized companies causes the warranty to be declined. Warranty does not extend to damage caused by impertinence or negligence in the use of the product.

The products we sell are covered by warranty with regard to the following conditions:

1. The warranty is valid for a period of twelve (12) or twenty-four (24) months depending on the legal nature of the purchaser.
2. The manufacturer undertakes to replace the products of mis-manufacture at its discretion, only after careful inspection and feedback of poor construction.
3. The buyer is always responsible for the cost of transporting and/or shipping in case of incorrect use of the warranty terms.
4. During the warranty period, the replaced products become property of the manufacturer.
5. Only the original purchaser who has complied with the normal use indications contained in the manual may benefit from this warranty. Our responsibility for the warranty expires when: the original owner gives up ownership of the product, or changes have been made to it.
6. The warranty does not cover damages resulting from excessive stress such as the use of the product after an anomaly is found, the use of inappropriate operating methods, and the failure to observe the instructions
7. The manufacturer takes no responsibility for any difficulties arising in resale or use abroad due to the provisions in force in the country where the product was sold.

Warning: If you believe the warranty is required, please provide the following information:

- Type
- Purchase date (presentation of purchase document)
- Detailed description of the problem

PRODUCT DESCRIPTION

The product described in this manual is a washable mask with water-repellent, hypoallergenic and breathable properties. The mask is made by cotton impregnated with graphene.

The mask is latex-free and it is reusable up to 50 times.

The mask in question cannot be defined as PPE as it does not have the purpose of protecting the user's respiratory tract.

The mask in question cannot be defined as a medical device as it cannot be used in the medical field.

TECHNICAL DATA

Sizes: S (6-9 years), L (9-11 years) – **Dimensions (mm):** 310 x 130 - **Weight (gr):** 20/pc approximately - **Available colours:** Grey

Materials:

- Mask structure: 97% cotton, 3% span
- Sewing thread: yarn 73% polyester, 27% cotton, 75 count. Embroidery: polyneon title 40
- Elastics and hem: 80% polyamide, 20% elastane - 170 g / m²

Unexpected use

There is no other use than those described in the section "**PRODUCT DESCRIPTION**". It is also absolutely forbidden: the use of the mask as an individual protective device or medical device, the use of the product by subjects who have not read the manual carefully, the use by those allergic to the

substances to which the product is composed, the use by children in recreational activities, apply the mask to the injured skin or a wound, apply the mask to parts of the body other than the face.

Product limits:

- masks can be used until the structure is compromised (for example cuts).

RESIDUAL RISKS

It is absolutely forbidden to make any changes to the product. Any damage resulting from the use of the product improperly modified by an unauthorized operator, relieves the manufacturer of any liability. Carefully store this manual, necessary for the correct and safe use of the product. If the structure of the product has deformations following an accidental collision, such as a rubbing against an abrasive material, such as to make it dangerous and/or unusable, it is necessary to contact authorized assistance and follow their directions.

USE

- Check that the mask is clean before application. If not, carry out the operations indicated in the paragraph "Cleaning and maintenance".
- Sanitize your hands by washing them thoroughly with soap and water.
- Remove the mask from the packaging (in the case of first use).
- Place the mask on the face to completely cover the nose, mouth and chin.

CLEANING AND MAINTENANCE

	Hand wash the product with warm water and neutral and non-aggressive detergents.
	Do not bleach
	Do not put in the dryer
	Do not iron

- **Drying:** dry in the open air avoiding direct sunlight.
- **Disinfection:** follow the instructions of the supplier of the disinfectant system.
 - Spraying on the surface with disinfectant solutions and waiting for them to dry

STORAGE

Before storing the product, check that it is clean.

- Store the product in a cool indoor environment, away from atmospheric agents and steam jets.
- Keep the product away from sources of heat, open flames and direct sunlight.
- We recommend storing the product inside a container that can preserve its characteristics.

DISPOSAL

The construction materials of the product do not require special disposal procedures. It is necessary to refer to the local regulations for the disposal of unsorted waste. Do not disperse or abandon the product to the environment for any reason.

AUTHORIZED ASSISTANCE

The authorized assistance on products can be carried out exclusively by authorized and qualified personnel of the Directa Plus S.p.A.

INTRODUCTION OF THE MANUAL

This manual contains instructions in order to use the washable mask with interchangeable filter. The manual consists of several sections, each of which covers a series of topics, divided into chapters and paragraphs.

The general index lists all the topics covered throughout the manual. Page numbering is progressive, and each page displays the page number. This manual is intended for the user, responsible for the use and storage of the product and is related to the technical life after its production and sale.

This manual contains confidential property information and cannot be partially provided to third parties for any use and in any form, without the manufacturer's prior written consent.

Directa Plus S.p.A. states that the information contained in this manual is in compliance with the technical and safety specifications of the product to which the manual refers.

Compliant copy of this manual is contained in the product's technical file, stored at Directa Plus S.p.A.

Directa Plus S.p.A. does not recognize any documentation that has not been produced, released or distributed by itself or its authorized agent.

This manual, like the entire technical file, will be kept by the manufacturer for the period required by law.

During this period, a copy of the documentation accompanying the product may be required at the time of sale.

The entire technical file remains available for this period only to the supervisory authorities, who will be able to request a copy. After this period, it will be mandatory and for those who manage the product, making sure that both the product and the documentation, are in compliance with the laws in force, in order to be able to use it in accordance with the current legislation.

Warranty

The warranty rules, listed in full in the purchase agreement, are valid only if the product is used for its purpose. Any repair or modification made to the product by the user or unauthorized companies causes the warranty to be declined. Warranty does not extend to damage caused by impertinence or negligence in the use of the product.

The products we sell are covered by warranty with regard to the following conditions:

1. The warranty is valid for a period of twelve (12) or twenty-four (24) months depending on the legal nature of the purchaser.
2. The manufacturer undertakes to replace the products of mis-manufacture at its discretion, only after careful inspection and feedback of poor construction.
3. The buyer is always responsible for the cost of transporting and/or shipping in case of incorrect use of the warranty terms.

PRODUCT DESCRIPTION

The product described in this manual is a washable mask with interchangeable disposable filter with water-repellent, hypoallergenic and breathable properties. Both mask and filter are printed with graphene printing paste.

The mask is latex-free; the external structure is reusable up to 50 times, while the internal filters are disposable.

The mask in question cannot be defined as PPE as it does not have the purpose of protecting the user's respiratory tract.

The mask in question cannot be defined as a medical device as it cannot be used in the medical field.

TECHNICAL DATA

Size: one – **Dimensions (mm):** 310 x 130 - **Weight (gr):** 20/pc approximately - **Available colours:** Red with CELLULA pattern

Materials:

- Mask structure: 88% polyamide - 12% elastane
- Filter: TNT, 100% PES
- Inner layer: 3D mesh, 100% polyester
- Sewing thread: 100% polyester yarn with a gutterman count embroidery: polyneon title 40
- Elastics and hem: 80% polyamide, 20% elastane - 170 g / m²

Unexpected use

There is no other use than those described in the section "**PRODUCT DESCRIPTION**". It is also absolutely forbidden: the use of the mask as an individual protective device or medical device, the use of the product by subjects who have not read the manual carefully, the use by those allergic to the

substances to which the product is composed, the use by children in recreational activities, apply the mask to the injured skin or a wound, apply the mask to parts of the body other than the face.

Product limits:

- masks can be used until the structure is compromised (for example cuts).
- The filter can be used only once as it is disposable.

RESIDUAL RISKS

It is absolutely forbidden to make any changes to the product. Any damage resulting from the use of the product improperly modified by an unauthorized operator, relieves the manufacturer of any liability. Carefully store this manual, necessary for the correct and safe use of the product. If the structure of the product has deformations following an accidental collision, such as a rubbing against an abrasive material, such as to make it dangerous and/or unusable, it is necessary to contact authorized assistance and follow their directions.

USE

- Check that the mask is clean before application. If not, carry out the operations indicated in the paragraph "Cleaning and maintenance".
- Sanitize your hands by washing them thoroughly with soap and water.
- Remove the mask from the packaging (in the case of first use).
- Place the mask on the face to completely cover the nose, mouth and chin.

To replace the filter:

- Sanitize your hands by washing them thoroughly with soap and water.
 - Remove the old filter from the mask structure and dispose of it in the unsorted waste
 - Remove the new filter from the package.
 - Place the new filter in the space provided according to these indications (photos attached):
- 1) Place the filter at the beginning of the pocket
 - 2) Insert the filter inside the pocket
 - 3) The Super Hero Solid filter mask is now ready to be worn

CLEANING AND MAINTENANCE

	Hand wash the product with warm water and neutral and non-aggressive detergents.
	Do not bleach
	Do not put in the dryer
	Do not iron

RESIDUAL RISKS

It is absolutely forbidden to make any changes to the product. Any damage resulting from the use of the product improperly modified by an unauthorized operator, relieves the manufacturer of any liability. Carefully store this manual, necessary for the correct and safe use of the product. If the structure of the product has deformations following an accidental collision, such as a rubbing against an abrasive material, such as to make it dangerous and/or unusable, it is necessary to contact authorized assistance and follow their directions.

USE

- Check that the mask is clean before application. If not, carry out the operations indicated in the paragraph "Cleaning and maintenance".
- Sanitize your hands by washing them thoroughly with soap and water.
- Remove the mask from the packaging (in the case of first use).
- Place the mask on the face to completely cover the nose, mouth and chin.

To replace the filter:

- Sanitize your hands by washing them thoroughly with soap and water.
 - Remove the old filter from the mask structure and dispose of it in the unsorted waste
 - Remove the new filter from the package.
 - Place the new filter in the space provided according to these indications (photos attached):
- 1) Place the filter at the beginning of the pocket
 - 2) Insert the filter inside the pocket
 - 3) The Tremezzo Thick filter mask is now ready to be worn

CLEANING AND MAINTENANCE

	Hand wash the product with warm water and neutral and non-aggressive detergents.
	Do not bleach
	Do not put in the dryer
	Do not iron

- **Drying:** dry in the open air avoiding direct sunlight.
- **Disinfection:** follow the instructions of the supplier of the disinfectant system.
 - Spraying on the surface with disinfectant solutions and waiting for them to dry

STORAGE

Before storing the product, check that it is clean.

- Store the product in a cool indoor environment, away from atmospheric agents and steam jets.
- Keep the product away from sources of heat, open flames and direct sunlight.
- We recommend storing the product inside a container that can preserve its characteristics.

DISPOSAL

The construction materials of the product do not require special disposal procedures. It is necessary to refer to the local regulations for the disposal of unsorted waste. Do not disperse or abandon the product to the environment for any reason.
